RIO BONITO CASE WILL BE APPEALED

Santa Fe, N. M., August 8.—Bonito valley farmers having water rights which they claim will be affected by allowing the El Paso & Southwestern railway to appropriate five cubic feet of water per second from the Rio Bonito have appealed from the decision of Territorial Engineer Vernon L. Sullivan to the board of water commissioners, which will meet in regular session here Friday. Mr. Sullivan in granting the railroad company a permit to appropriate the water and change the point of diversion stipulated that owners of prior subsisting water rights must not be affected but the users of water for irrigation purposes are opposed to allowing the railroad company to take out any of the water. The railroad company purchased a number of water rights and has options on others intending to pipe the water to stations along the line and the project will cost between one and two million dollars.

NO CRIME TO PASS CONFEDERATE MONEY

Pueblo, Colo., August 8.—According to a decision which was made today in Justice Corson's court, passing a confederate bill is no crime. John Prijatelj was on trial for having passed a one hundred-dollar confederate bill on a Pueblo bartender in payment for three glasses of beer. Justice Corson decided that no grounds had been shown on which to base a charge of false pretenses, as the testimony showed the Austrian had simply laid down the bill and that the bartender had picked it up, giving him good money in exchange. Government officers, refused to have anything to do with the case, as the bill was not a counterfeit. Prijatelj state in court this morning that he met a man in Chicago, and while they were together the other picked up the one hundred-dollar bill in question. The finder offered to divide the value equally with Prijatelj, but as the latter did not have \$50 the finder accepted \$30 for half interest.
